1.

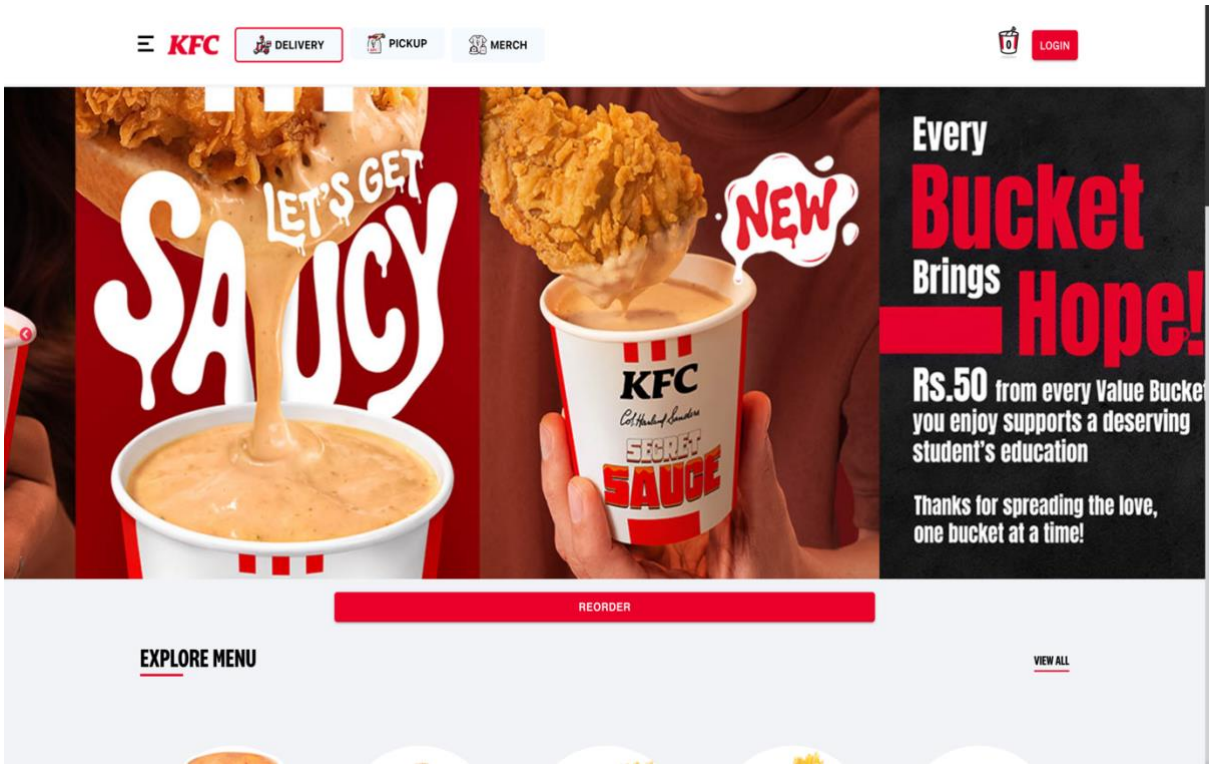

Heuristic Name:

Visibility of the System Status

Reason:

The homepage banners and menu sections load without a clear loading indicator, so user may not know whether the page is still processing.

Screenshot:

2.

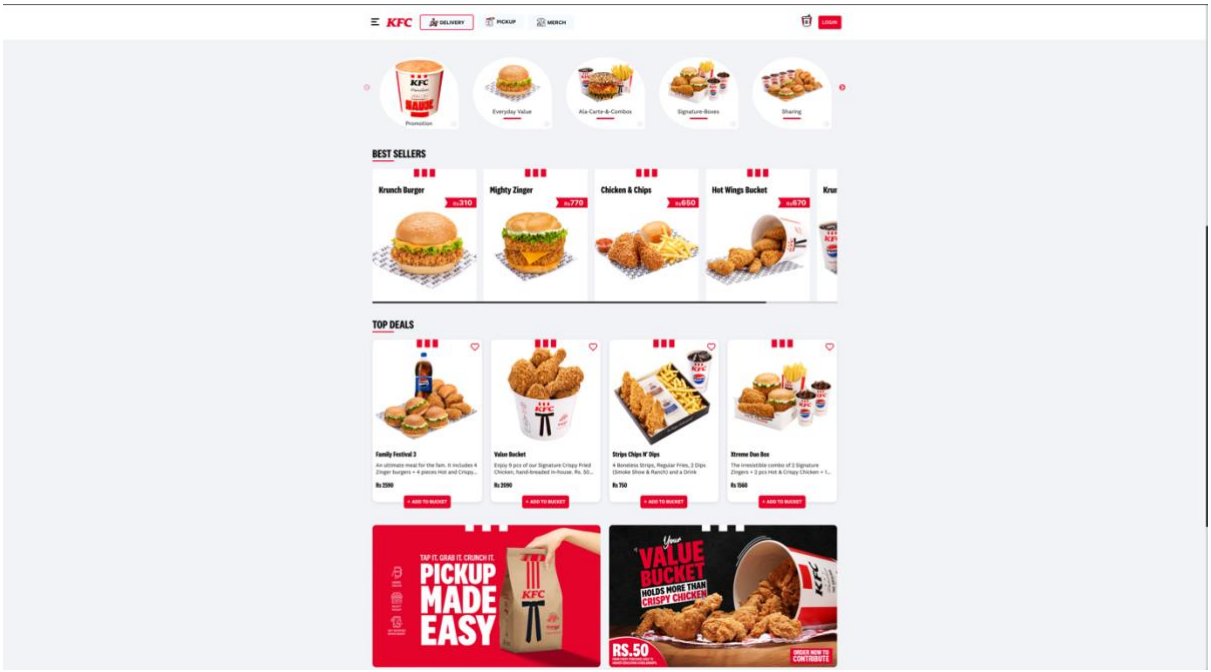

Heuristic Name:

Recognition Rather than Recall

Reason:

Important options like deals, categories, and ordering actions are scattered, forcing users to remember where features are located.

Screenshot:

3.

Heuristic Name:

Match Between System and the Real World

Reason:

Some promotional names and deal labels are marketing-focused and may not immediately explain the actual meal contents to first-time users.
